Paper 2
(Practical)

BLOCK DRAFTING SESSION: 1 hour 30 minutes

GARMENT CONSTRUCTION SESSION: 2 hours 30 minutes

INSTRUCTIONS TO CANDIDATES:

*This examination paper consists of **one compulsory** item with **two** tasks.*

*Respond to **both** tasks.*

ITEM

A newly formed tailors' association has received orders to supply corporate wear for over 1000 staff from three different organisations in one month. Being a new association it faces a challenge of producing graded pattern blocks, especially for the sleeves, which can be adapted to produce garments that fit different sizes. The chairperson of the association knows that your class has the knowledge and skills in drafting. He is therefore seeking your guidance in drafting a graded sleeve block for size 14 that can be adapted to satisfy the needs of the three different organisations.

Task 1: DRAFTING A BLOCK: 1 hour 30 minutes

Create the required graded block for which the chair person was seeking your guidance.

Task 2: GARMENT CONSTRUCTION: 2 hours 30 minutes

Construct a highly marketable dress for a corporate wear for the staff of one of the organisations, using the final graded dress block for size 14 and the lay out plan provided.

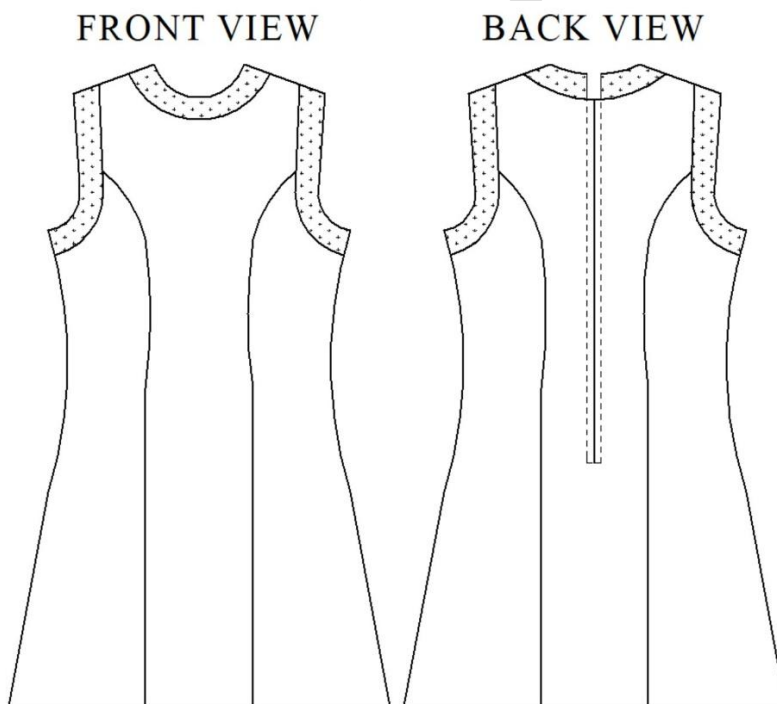

Fig. 1. The front and back view for the dress.

Also provided is the lay out plan for final paper pattern.

LAYOUT PLAN (not drawn to scale)
